

90 x 240 mm

The diagram shows a roof truss structure on a grid. The truss consists of a horizontal top chord, a horizontal bottom chord, and two diagonal members meeting at a central peak. The top chord is a solid green line, and the bottom chord is a solid green line. The diagonal members are dashed green lines. Two rectangular openings are cut out from the top chord. The first opening is on the left side, and the second is on the right side. The dimensions of the openings are labeled in magenta text: '90 x 240 mm' for the left opening and '90 x 275 mm' for the right opening. The grid is composed of solid green lines, with vertical dashed lines indicating the centerlines of the openings.
