

210 x 190 mm

The image shows a technical drawing on a green grid. Two rectangular components are outlined in magenta. The left component is labeled '210 x 190 mm' and the right component is labeled '210 x 235 mm'. Dashed green lines indicate the alignment and extension of the components. A horizontal dashed line connects the top-right corner of the first rectangle to the top-left corner of the second. Vertical dashed lines extend from the top corners of both rectangles to the top edge of the grid. Diagonal dashed lines are drawn from the bottom-left and bottom-right corners of the grid to the top-left and top-right corners of the dashed line, respectively.
