

270 x 325 mm

The diagram shows a roof truss structure with two rectangular panels. The left panel is labeled '270 x 325 mm' and the right panel is labeled '270 x 395 mm'. The truss is supported by a horizontal base line. The roof is formed by a series of parallel lines, with a central vertical line and two diagonal lines meeting at a peak. The panels are positioned above the roof structure. The drawing uses solid green lines for the main structure and dashed green lines for the roof and support lines. The panels are outlined in magenta.
