6x
packaging
concepts

preface.

With pride, we present to you our new magazine featuring a variety of new products and packaging concepts. We have been very active in the past year.

You may have noticed that we are now operating from our new office, situated directly opposite our old location. We have completely transitioned away from gas usage, generating our own warmth through the installation of a heat pump.

Currently, we are in the process of installing solar panels and power storage systems. With this major renovation behind us, we are more than prepared for the future.

In September, we celebrated the opening, welcoming many customers and suppliers. Our new showroom is the space where we proudly receive our customers, showcasing all our products.

We are also pleased to announce the installation of four brand-new digital printers. These allow us to produce printed packaging in small and large quantities within 10 working days. These digital printers are highly environmentally friendly, as we generate our own energy.

For many customers, we have developed a portal that enables product retrieval per box and per branch. We are more than happy to manage and internationally distribute your goods from our warehouse, providing a hassle-free solution. We have observed significant success with many customers already taking advantage of this service.

We approach the future with great confidence. You are warmly invited to our new premises for a tour of our sustainable office. Our team is ready to assist you! Alternatively, I hope to have the pleasure of meeting you at one of the upcoming trade shows where we will be present.

Aart Foppen

Opening new office

At the end of September 2023 our new building was officially inaugurated! It was a moment we had been looking forward to for a long time.

14.

ZEROTREE® packaging

ZEROTREE® is our internationally registered brand name. No new trees are used with the production of ZEROTREE® packaging.

26.

Packaging concept: PENHA

PENHA DUTY FREE is the largest beauty/cosmetics retailer in the Caribbean, with more than 25 stores. Be inspired by the new packaging concept.

46.

Fashion industry

Our packaging line for the fashion industry will serve as both protection for your garments as well as a beautiful promotion for your brand.

**meet
our team.**

At FF-PACKAGING, we're all united by one thing: our genuine love for packaging. With over 25 years of collective experience and product knowledge, we're constantly diving into innovative packaging developments. We don't just see our work as a job; we believe it's the best job in the world. The end result is always straightforward: flawless packaging crafted with love and care just for you. And that passion doesn't just show in our packaging but also in our service. It's a contagious enthusiasm that resonates, even with the youngest generation.

A team of 35 dedicated individuals!

We take joy in assisting you daily on your quest for the perfect bags or packaging. Whether it's crafting, designing, printing, or delivering, we guide you every step of the way. Schedule a personalized appointment at your location or at our new office or meet us online.

opening new office.

At the end of September 2023 our new building was officially inaugurated! It was a moment we had been looking forward to for a long time. The opening celebration was spread over two days so that we could give all the attendees the attention they deserved.

Client Day
We kicked off the festivities on Friday, September 29th, for our clients. They were welcomed into our beautifully decorated party tent. Throughout the afternoon, there were guided tours, opportunities for catching up, and delightful treats for everyone. Smoked eel and salmon were served, there was a trendy fish cart, and

delicious sandwiches were prepared. We received enthusiastic responses from our guests! After the event, everyone received a lovely goodie bag as a token of appreciation.

Family Day
On Saturday, we celebrated once again, this time with a big event for our staff, their partners, children, and other family members. Everyone had the opportunity to admire the new building. For the children, there was a large bouncy castle, a popcorn machine, craft tables, and traditional Dutch games. This day was also well taken care of with snacks and drinks. CEO and Founder Aart Foppen officially opened the building by cutting the orange ribbon, accompanied by a burst of confetti and cheers from all the children. It was a unique moment to cherish.

Decoration and entertainment
Local businesses were chosen for the decoration and catering of these festive days. From setting up the party tent to flowers, balloons, and catering. The musical entertainment was provided by a shanty choir and a live performance of a DJ.

Thank you!
We want to express our gratitude to everyone who attended. The many flowers, chocolates, cards, and other gifts are deeply appreciated. We look back on two incredibly successful days and are very proud of what we have achieved together.

reception & showroom.

Sometimes it can be challenging to make choices online or to compare and evaluate packaging effectively. A visit to our showroom provides the ideal solution for this. Thanks to our central location in Harderwijk, we are easily accessible. You can park right in front of the entrance, and while enjoying a fresh cup of coffee, we find the perfect packaging solution for your business. Feel free to visit us without an appointment.

scan me

our road to succes.

1996

Founded on the first of May 1996 in Harderwijk, under the name F&F verpakkingen. Located on the Wethouder Jansenlaan in Harderwijk.

2011

Expanding our sales channels to EU markets. A logical consequence to change our company name to FF-Packaging.

2002

Our new office is being built and the company with ten employees move in 2002 to Nobelstraat 35 in Harderwijk.

2016

We now deliver our packaging to more than 10,000 customers in 32 different countries worldwide every year.

2004

As one of the first packaging suppliers, we took the step of relocating part of the purchasing and production to Asia.

2021

25th anniversary! Also our new website was launched where people can order printed bags and luxury packaging directly online.

2007

With our own screen printing company and digital printers, we are innovative in the fast delivery of printed bags and boxes.

2023

In the spring we moved to our new and more spacious head office. This office is situated directly opposite our old location.

2007

ZEROTREE® bags and boxes, made from recycled grass, banana leaves, straw and recycled jeans. A revolution in the European market.

2030

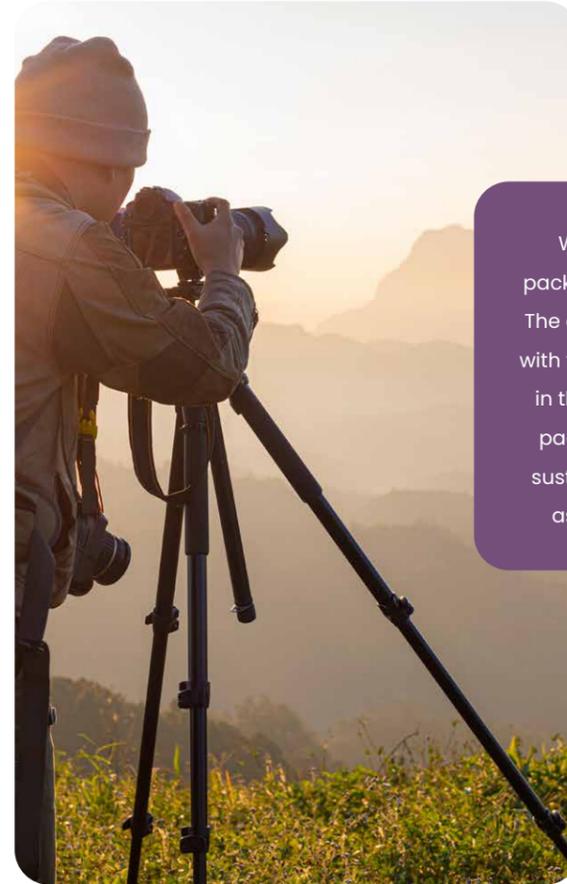

FF-PACKAGING is more than prepared for the future! Scan the QR code to read our full story online.

packaging concept.

 cameranu

Cameranu has grown in 20 years to become the photo and video specialist in the Netherlands. The company was founded in 2003 and now has 10 locations. On the occasion of its 20th birthday the company has been given a completely new look and packaging line.

We produced the new packaging line of Cameranu. The concept fits much better with the company of now and in the future. The complete packaging line is made of sustainable materials, such as FSC® certified paper.

MEMORIES**

code of conduct.

FF-PACKAGING thinks it is important that its products are manufactured in an honest and responsible way.

In this code of conduct, we describe the guidelines and principles that we pursue and organize as an organization. In this way, we contribute to ethical standards in the countries where we are active.

1. Laws and regulations

FF-PACKAGING complies with all local laws and regulations in the relevant country.

2. Child labour

FF-PACKAGING does not accept child labour at the production sites. The locally applicable minimum age per country is respected.

3. Working conditions

Every employee works in a safe and healthy environment, aligned with local laws and regulations. Forced labour and intimidation are not tolerated. The employees are provided with food and drinks.

4. Discrimination

Discrimination based on gender, age, descent, religion and sexual orientation is not tolerated at the production sites.

5. Working hours

The employees work no longer than the maximum permitted number of hours per day/week in the relevant country. Overtime is paid. Every employee receives enough resting time per working day.

6. Salary

Salary is paid to employees at least once a month.

Wages will never be lower than the minimum applicable wage in the country concerned.

7. Freedom of association

Employees are free to join an association or trade union without being affected by it in their work environment.

8. Environment

Both the purchase of raw materials and the production process correctly handle local environmental standards. Waste and residual material are disposed of and where possible recycled. We continuously strive to optimize these processes.

CSR.

We make sure to give our employees the possibility to get the best out of themselves.

Sustainable and responsible entrepreneurship are becoming increasingly important. But what does CSR actually stand for and you might be curious how we implement this in our daily policy at FF-PACKAGING.

Corporate Social Responsibility

CSR stands for Corporate Social Responsibility. CSR is an ongoing process in which a balance is continuously sought between doing business while keeping people and the environment in mind. These can be summarized in the 3 "Ps": People, Planet and Profit.

People

People stands for caring for the people in and around a company.

At FF-PACKAGING, People is an important pillar of our policy. We believe it is important that our employees feel comfortable and can work under pleasant and good working conditions. We make sure to give our employees the possibility to get the best out of themselves.

scan me

Planet

The Planet pillar is about care for the environment and therefore our planet. This pillar focuses on minimal or no taxation the environment.

We do our best at FF-PACKAGING to contribute to this by, for example, separating waste, using LED lighting or keeping paper usage as low as possible during printing. We also offer our customers the option of choosing environmentally friendly carrier bags or packaging and purchasing products in a climate-neutral way.

Profit

The third pillar Profit is about finding the right balance between the 3 pillars in order to pursue a profitable policy.

At FF-PACKAGING we continuously look for opportunities in doing business with a focus on people and the environment.

ZEROTREE® packaging.

ZEROTREE® is our internationally registered brand name. When producing ZEROTREE® packaging, we utilize alternative materials instead of trees.

By choosing ZEROTREE®, you demonstrate your commitment to reducing logging and your attention to life in and around the woods.

Materials:

-  Abaca (banana leaves)
-  Recycled jeans or cotton
-  Recycled straw
-  Recycled grass fibers

Natural resources

ZEROTREE® is crafted from handmade paper comprising natural raw materials such as banana leaves (abaca), grass fibers, straw, or recycled cotton residues from the textile industry. The cords are made of jute fibers or recycled paper. Due to the use of natural materials, ZEROTREE® boasts a natural and sustainable appearance.

Social and ecological impact

ZEROTREE® contributes socially to the local population in India and the Philippines, creating jobs with fair wages. The income generated supports education and contributes to

the well-being of families. As no trees are felled, ZEROTREE® makes a positive contribution to conservation and life in and around forests. The end result is a recycled, sustainable bag, shipping box, or luxury gift box created under socially and ecologically responsible conditions.

Planting our own ZEROTREE® orchard

Our own brand, ZEROTREE®, sets an example by not cutting down trees for packaging production. Taking it a step further, we are joining the trend of planting trees ourselves, but in our unique way. Preparations, including

selecting the location, timeframe, and tree species, are underway. This is a local initiative involving the next generation, directly benefiting them.

In the coming months, we will keep you updated on the progress. Please follow our social media, read our blogs, and subscribe to our newsletters to stay informed and not miss out on anything!

CREATE WITHOUT LIMITS

paper bags.

We produce and print many different types of paper bags. From budget to luxury paper bags. Did you know that we have the largest and most diverse range of paper bags in stock throughout Europe? We can deliver all these bags to you quickly, both with and without printing, within 5 working days!

Would you like to put together printed paper bags entirely according to your wishes? Then choose our custom-made solutions. For example, from 250 pieces you can determine the paper quality, the finish and the colour and material of the handles yourself.

Budget

Budget paper bags are the cheapest bags in our range. You can put together your budget paper bags according to your wishes. Think of the size of the bag or the colour of the paper handles. In addition, it is possible to print these budget paper bags in full colour.

Twisted

Twisted paper carrier bags are slightly stronger compared to budget paper bags and have a more luxurious appearance.

Luxury

Luxury paper bags are the crème de la crème of paper bags and can be put together according to your wishes. Think of the size, the material, the loops or handles, an elegant closing ribbon and the printing possibilities with luxurious finishes.

Gift bags

Paper gift bags are ideal for wrapping gifts. This way you can pack your products in a quick and simple way and give them in a festive way.

scan me.

FSC® C124374

The mark of responsible forestry

FSC® certified paper

Forest Stewardship Council, an international organization promoting sustainable forestry and responsible management of the world's forests. The FSC sets standards for forestry practices and certifies products that come from responsibly managed forests.

Recycled paper

White or brown recycled kraft paper is made from collected waste paper. Recycled paper consists of at least 80% recycled paper material whose paper fibers are long enough to keep the paper strong. The other 20% mainly consists of binders.

10 reasons to buy paper bags

1. Environmentally friendly and durable
2. Easy to print
3. The perfect way to use for advertising
4. Recyclable
5. Low price
6. Quick delivery
7. Diversity
8. Choice of multiple delivery times
9. FSC® certified paper
10. Suitable for every industry and purpose

jute in the mix.

Jute

Available in various sizes and colour combinations, the jute bags are highly versatile, suitable for a range of uses from organic stores, supermarkets, and cosmetic companies to promotional bags at trade shows or events. The standard thickness / weave of jute bags is 13x13 PSI natural jute.

Juca

The outside of a juca bag is made from jute and the lining on the inside is made from cotton. The juca bag is a sustainable option as it is reusable and 100% made from natural materials. The jute weave on the outside of the bag can be dyed, adding a vibrant herringbone pattern to the juca bag.

Juco

Juco bags are made from a mix of jute and cotton. Combining these two materials results in a sturdy bag with a distinctive look and feel. Juco bags are sustainable as they are reusable and made from natural materials. Additionally, they are highly suitable for printing, making them an effective promotional tool for your business.

packaging concept.

We have developed an exclusive and sustainable packaging line for THE SOCIETY SHOP. The concept is mainly inspired by the new corporate identity of the stores. This means that the stylish look & feel is always reflected in the details of the packaging.

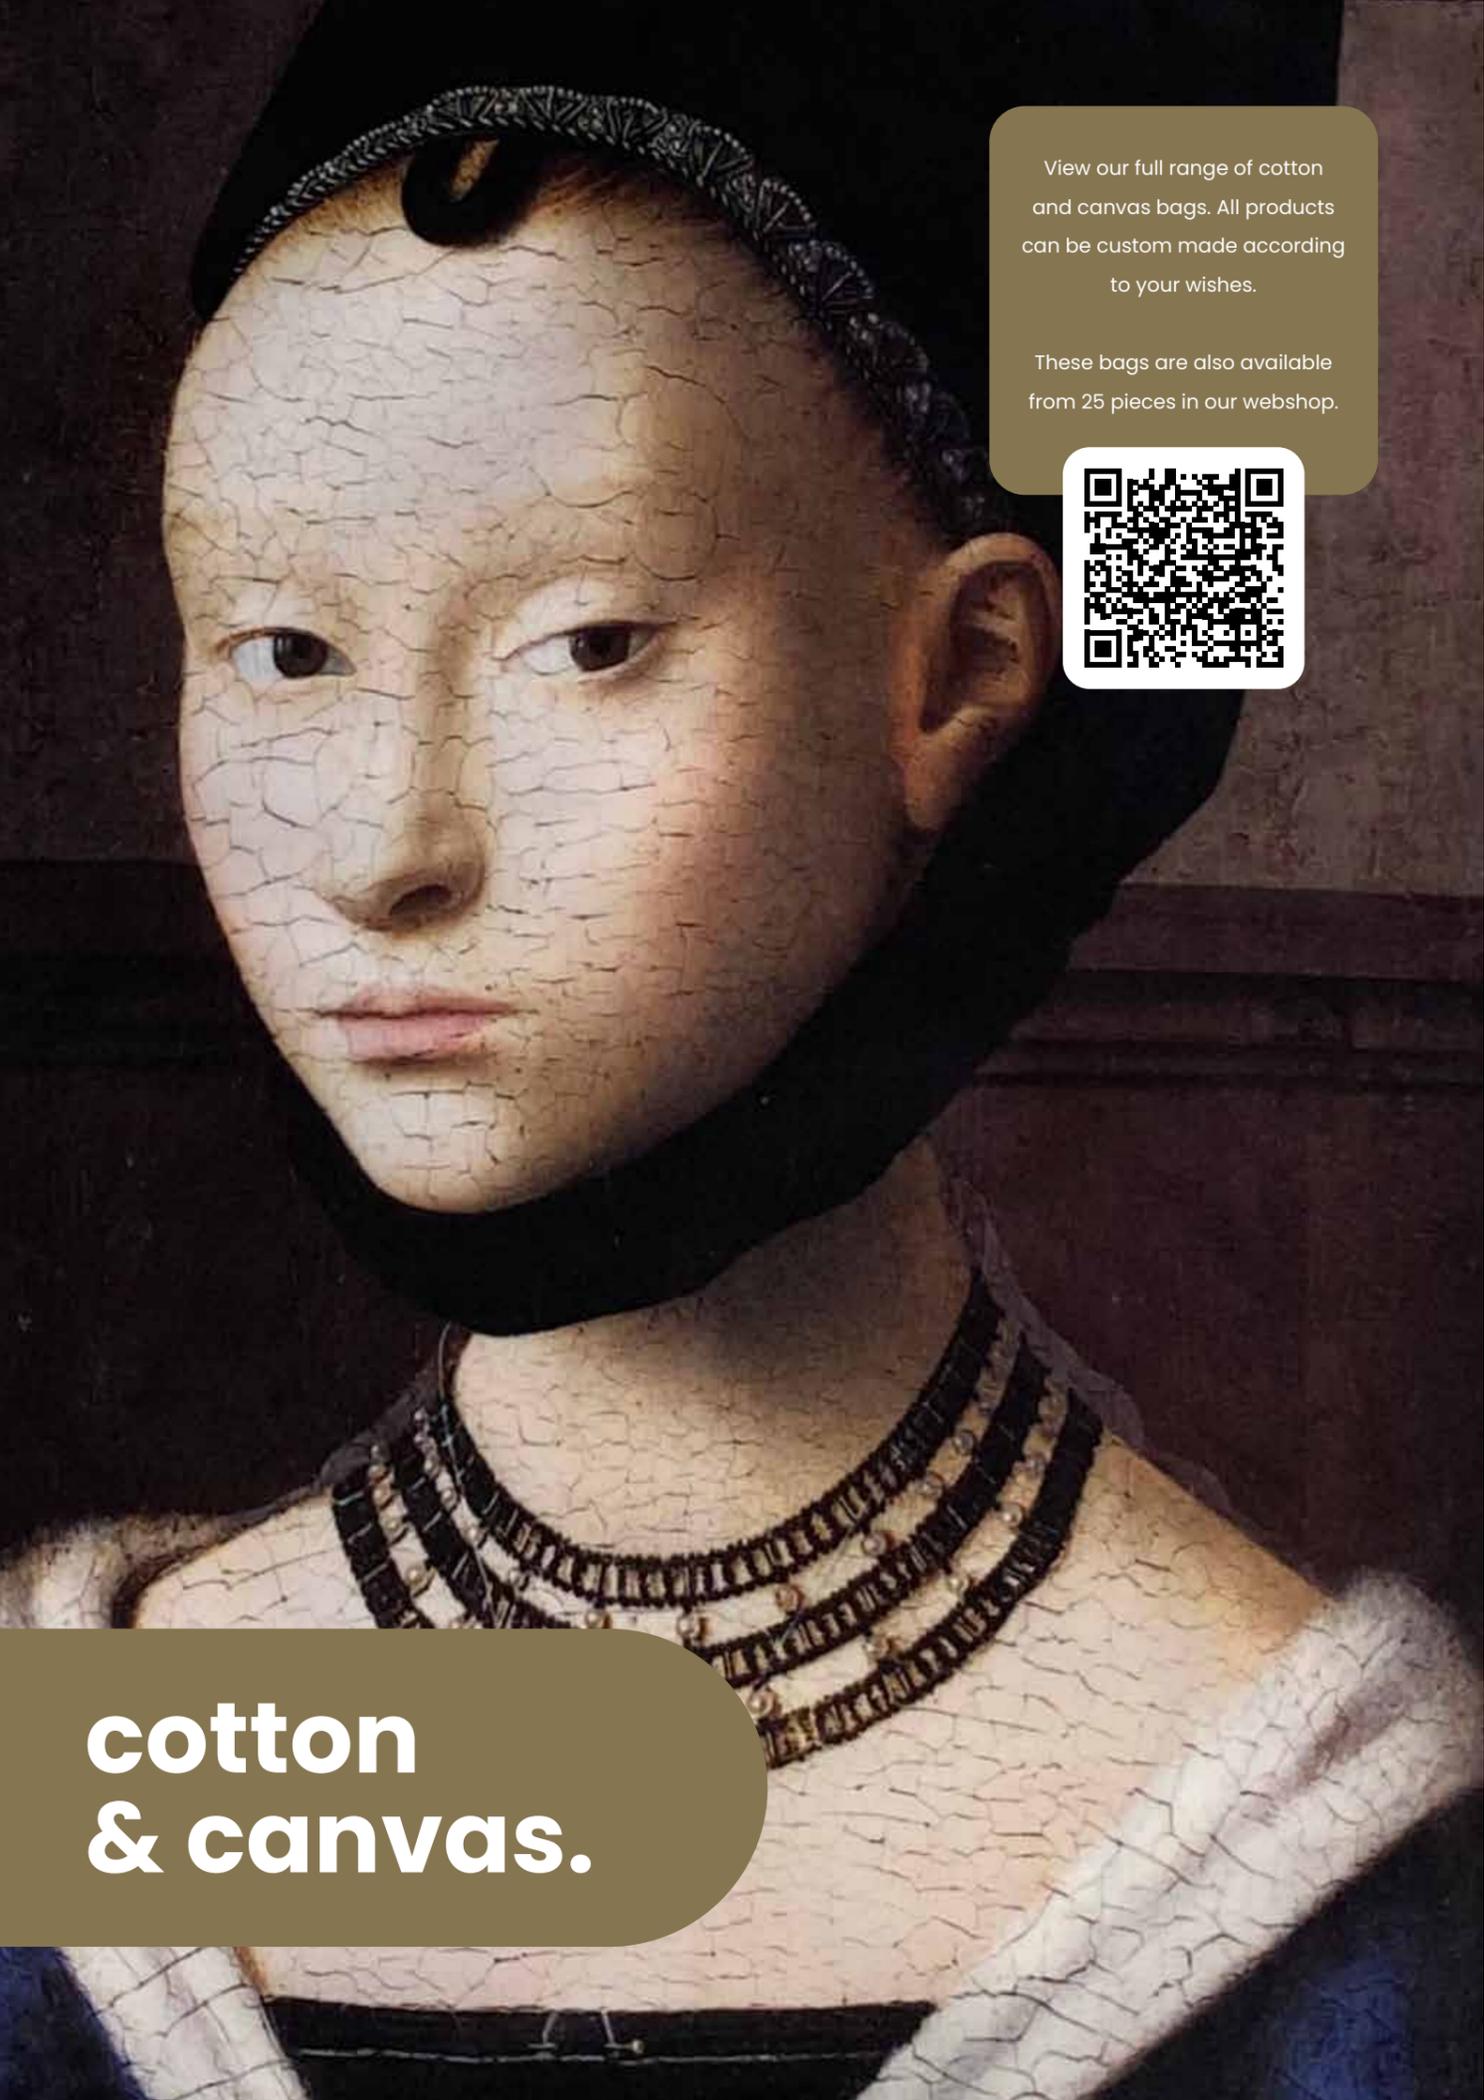

All of the packaging is produced with recycled materials and/or sustainable reusable materials. Be inspired by the beautiful luxury packaging line from THE SOCIETY SHOP.

Shipping bags and envelopes are mainly used for sending webshop orders. Usually, the shipping envelopes have a flat design. But if you sell shoes, boots, winter coats or products in boxes? Then you can choose a shipping bag with a block bottom. This shipping bag has more depth and volume due to the bottom and side gussets.

Paper and plastic shipping bags are 100% recyclable and therefore durable. By printing shipping bags with the recycled logo or FSC® logo you show your consumer that you are environmentally conscious. Recycled plastic shipping bags can be made from post-consumer waste or industrial waste.

shipping bags and envelopes.

gift packaging.

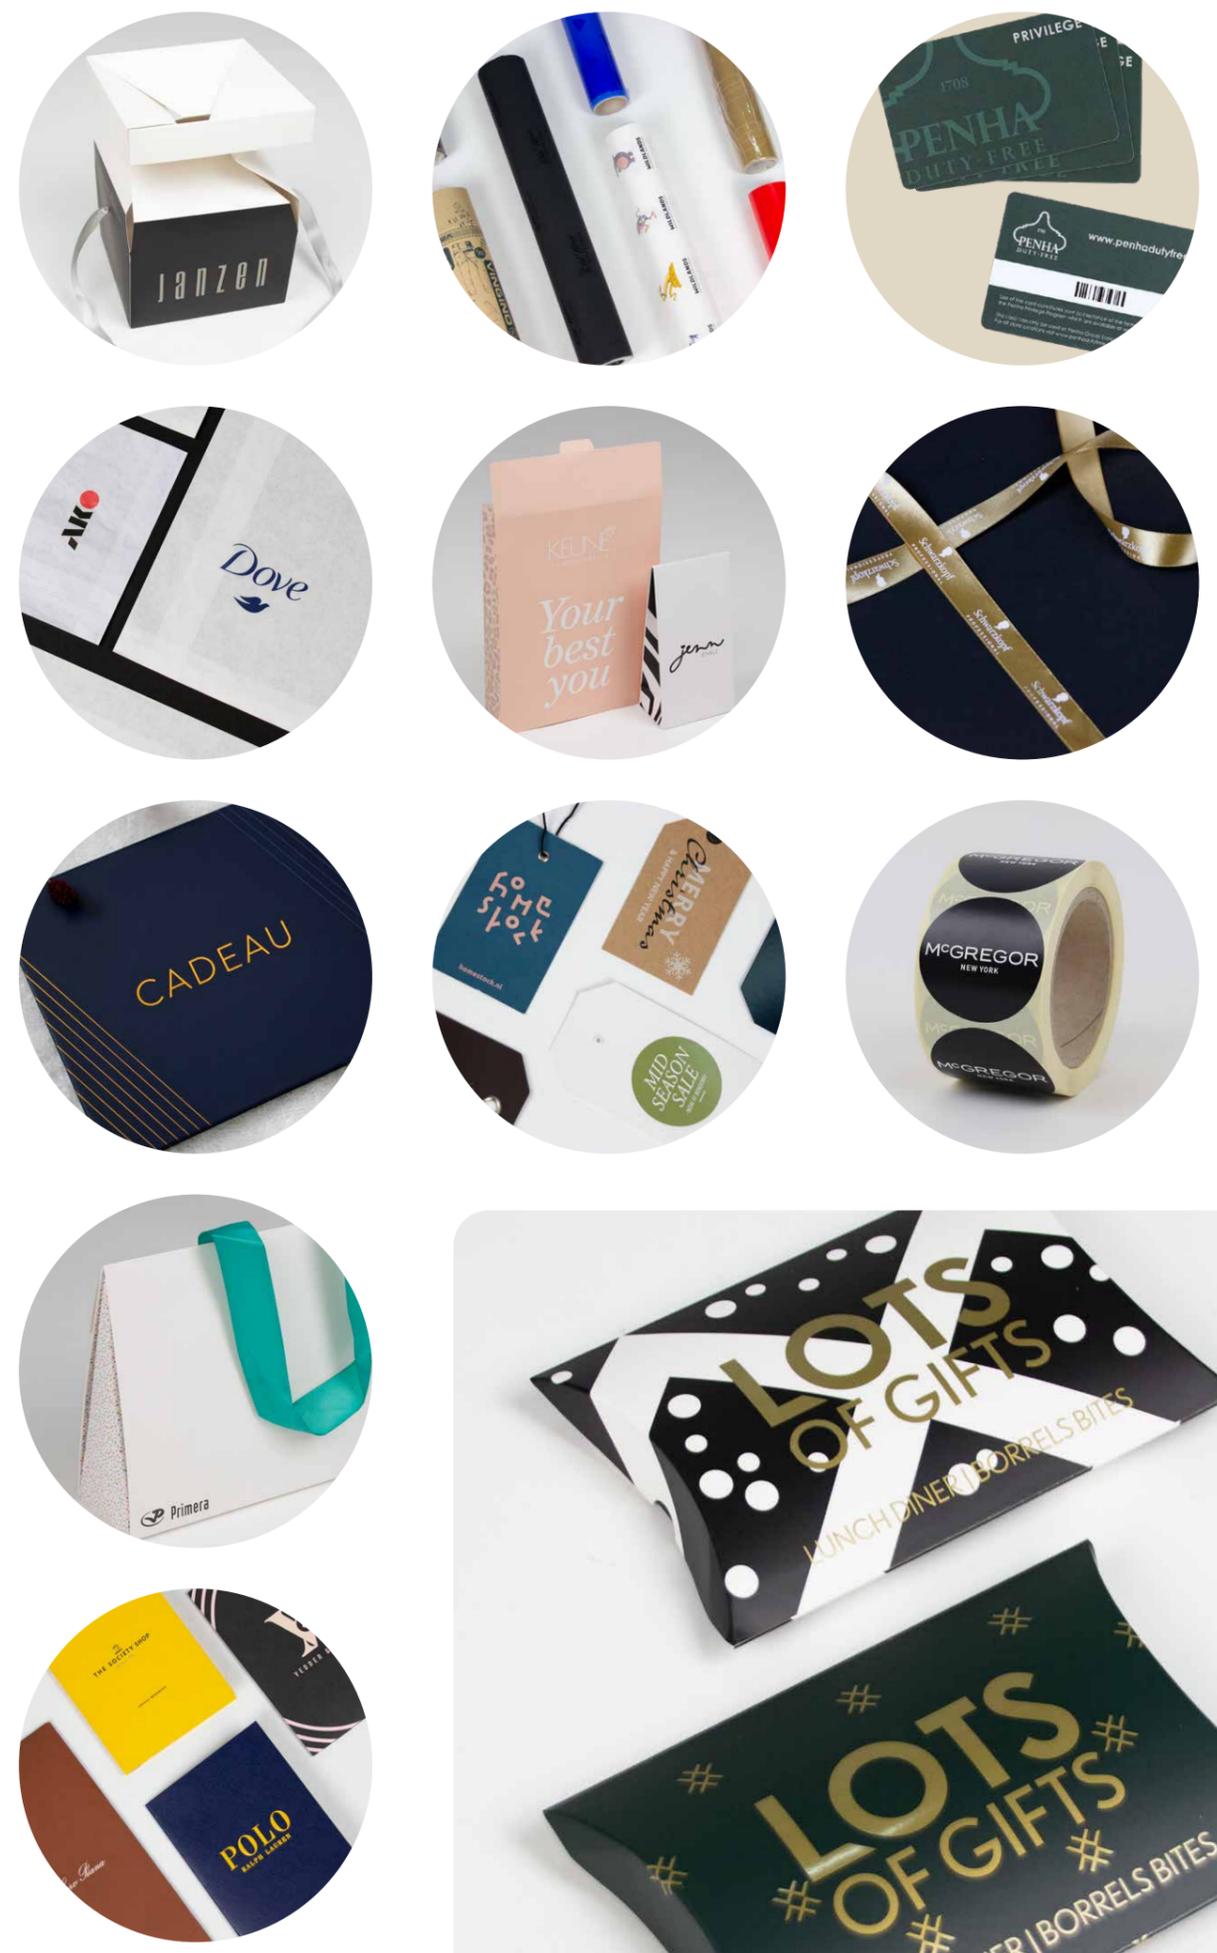

The finishing touch.

Give your customers a smile by packing their purchase in an original way. With our gift packaging you have more than enough choice to create the perfect gift. Think of wrapping paper, printed ribbon, curling ribbon, labels, hangtags, receipt holders, gift bags, gift vouchers or a gift card in a nice folder. Combine products to achieve a styled result.

We also supply tissue paper or paper filling material made by Spiro to help protect the purchase.
